

ARTS COLLABORATION PROJECTS IN ASIA

We are living in what has been described as the *Asian Century*, and as the world's attention pivots towards the Asia region, artists in Asia are producing some of today's boldest and most exciting artworks. Pop music from Korea, movies from India and visual art from China exemplify the flourishing of a diverse range of arts scenes across the region. Due to the immense populations of Asia and rapid economic growth, many artists are now finding mainstream success. If you are an arts organisation or an artist yourself, there is no reason why you can't be part of these exciting times and getting involved with an arts scene in Asia will open the doors to larger audiences, increased sales and heightened levels of artistic inspiration. If you want to be a part of the action, League Cultural Diplomacy is here to help.
